Subject: Laboratory coordination on Freedom Industries raw material samples

Hi there Cindy, Adam, and John

I wanted to connect all three of you because I believe you all are the points of contact for EPA R3 Fort Meade Laboratory, OSHA Laboratory, and NIEHS NTP Laboratory. If I am wrong about this please feel free to forward accordingly! (Adam, in particular I am thinking we may need someone like Scott Jones in OSHA Las Vegas location, but I was unsuccessful in tracking down an email for him. You all hide your employee directory information very well!!) My understanding is that your labs all have raw material/waste samples from the Freedom Industries water contamination site in Charleston, WV and are pursuing analyses of these materials.

ATSDR/CDC HQ felt it would be useful if you all were speaking together and coordinating on approaches. I imagine you are all extremely busy so I hope by connecting you by email I am being helpful and not a burden.

Thank you very much.

Best, Lora

Lora Siegmann Werner, MPH
